Summer 2023

Pearson Edexcel International GCSE In Biology (4BI1) Paper 2BR https://britishstudenfroom.com/

Edexcel and BTEC Qualifications

https://britishstudentroom.com/ Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www.pearson.com/uk

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded.
 Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question Number	Answer	Mark
1(a)	 in a test tube / culture dish / jar / glass / petri dish / container / in culture solution / in a lab / outside a living organism / eq (1) 	1

Question Number	Answer	additional guidance	Mark
1(b)	An explanation that makes reference to the following points: • plant cells can differentiate / eq (1) • into all / different types / kinds of tissues or cells / specialised cells eq (1) • throughout the plants life / eq (1) • can form / regenerate (whole) new plant / eq(1)	allow converse for human cells only stem cells can only embryonic	2
	can form / regenerate (whole) new plant / eq(1)	embryonic	

		h _{th}	S://britishs.
Question	Answer	additional guidance	Mark Mark
Number 1(c)	An explanation that makes reference to the following points: • mineral 1 (1) • function (1) • mineral 2 (1) • function (1)	allow for eg named minerals to get function mineral must match no mineral no function not just for growth nitrate amino acids / proteins / DNA/ nucleic acids /eq Magnesium chlorophyl / chloroplasts / photosynthesis Phosphate ATP / DNA / RNA / nucleic acids / cell membranes/ eq Calcium cell wall / cell membranes / eq Potassium stomatal opening / eq allow other correct mineral ions ignore nitrogen / nitrites / phosphorous /	4

		heres://b	itish _{studentro}
Question Number	Answer	additional guidance	Mark %
1(d)	An explanation that makes reference to two of the following points: • enzyme affected by pH / by acid / by alkali / works best at optimum (1) • shape of active site changed / substrate can no longer bind / fit / eq (1) • enzyme / active site denatured (1)	to score mp 1 must mention enzymes somewhere in answer	2

Question Number	Answer	additional guidance	Mark
1(e)	A description that makes includes three of the following points:		3
	 (shoot) in light from one side / unidirectional light / eq (1) 		
	 (shoot) in darkness / light all around / light from other side / eq (1) 		
	 leave for both for stated time / use shoots of same type / same temperature / same water / other control variable / eq (1) 	allow leave for a few days	
	 description of bending or growing towards light or measure angle / look at curve / bending / eq (1) 		

		https:	- Abritishstude.
Question Number	Answer	additional guidance	Mark ************************************
1(f)	An answer that makes reference to two of the following points: • maintain biodiversity / reduce damage to food chains / ecosystems / eq (1) • prevent extinction (1) • keep (species / varieties / genotypes) for future generations / future use / eq (1) • in case climate changes / eq (1) • for medicinal properties / eq	ignore increase biodiversity	2

Question Number	Answer	Mark
1 (g)	 An explanation that makes reference to three of the following points: (agitation) to mix contents / mix media /mix oxygen / mix carbon dioxide (with plant cells) / substrates with plant cells / take up minerals / take up nutrients / eq (1) (light) for photosynthesis / eq (1) (suitable temperature) for enzyme action / eq (1) 	3

Total = 17 marks

Question Number	Answer	Mark	, com
2(a)(i)	The only correct answer is D (I is the vacuole)	1	
	A is not correct as F is the cell wall		
	B is not correct as G is the nucleus		
	C is not correct as H is the cytoplasm		

Question Number	Answer	Mark
2(a)(ii)	The only correct answer is B (G is the nucleus)	1
	A is not correct as F is the cell wall	
	C is not correct as H is the cytoplasm	
	D is not correct as J is a mitochondrion	

Question Number	Answer	additional guidance	Mark
2(b)	correct measurement of P to Q	allow 36-40 mm	3
	conversion to µm	or 3.6 to 4.0 cm for correct	
	division of PQ ÷ actual length	measurement with units 1	
	correct answer = 475 (3)	mark	
	allow 450-500 for 3 marks allow in standard form (4.75 x 10²)	and 1 mark for ÷ 80	

		h _{th}	Mark	
Question Number	Answer	additional guidance	Mark	2
2(c)	An explanation that makes reference to four of the following points:	gaidanic	4	
	 long (root hair) / reaches into soil / penetrates / branches / eq (1) 	protuberance		
	• increases surface area (1)			
	• to absorb water / eq (1)			
	• by osmosis (1)			
	to absorb minerals / ions / eq			
	• by diffusion (1)			
	active transport (1)			

Total = 8 marks

Question Number	Answer		Mark
3(a)	mass of starch ÷ mass of carbohydrate	allow 1 mark for ÷ 68	2
	× 100		
	2004 (2)	allow 97.8 / 97.79 / 97.794 etc for 2	
	98% (2)	marks	

		https://british	
Question Number	Answer	additional guidance	Mark
3(b)	An answer that that makes reference to four of the following points: biscuit B, difference and explanation	allow converse for biscuit A	4 7.00
		if no reason and explanation allow one max for biscuit B and correct difference(s)	
	 less energy/ kJ so less stored as fat / less weight gain / stored fat used for energy / eq (1) 	not just to lose weight	
	 less lipid / so less (energy) stored as fat / less weight gain / less blood cholesterol / less risk of CHD / eq (1) 		
	 less sugar / so less (energy) stored as fat / less weight gain / less risk of diabetes / eq (1) 		
	4. more starch so energy released (more) slowly / eq (1)		
	5. less salt so less effect on blood pressure / less risk of CHD/ eq (1)		
	6. more protein for repair / growth / eq(1)		

Question Number	Answer	additional guidance	Mark Toon
3(c)(i)	A description that makes reference to four of the following points: 1. measure out cm ³ / same volume / measure mass of water / eq (1) 2. use sample of biscuits of same mass / known mass / eq (1) 3. hold under boiling tube of water /eq (1) 4. relight if goes out / continue until completely burnt / eq (1) 5. (use thermometer to) measure increase in water temperature / measure initial and final temperature of water/ eq (1) 6. highest temperature rise / ref to equation	allow mp 1 2 5 6 from equation energy = (mass of water x temp rise x 4.2) ÷ mass of biscuit	4
	has most energy / eq (1)		

Question Number	Answer	Mark
3(c)(ii)	 An answer that includes two of the following some energy lost / some heat escapes / (to surroundings) / not all energy reaches tube / some released as light /eq (1) 	2
	 not completely burnt / not all energy released / not burnt in oxygen / eq (1) temperature of water uneven / eq (1)

Question	Answer	Mark
Number		
4(a)(i)	The only correct answer is A (P is nitrogen fixation)	1
	B is not correct as Q is not nitrogen fixation	
	C is not correct as T is not nitrogen fixation	
	D is not correct as V is not nitrogen fixation	

Question	Answer	Mark
Number		
4(a)(ii)	The only correct answer is C (T is nitrification)	1
	A is not correct as Q is not nitrification	
	B is not correct as U is not nitrification D is	
	not correct as W is not nitrification	

Question	Answer	Mark
Number		_
4(a)(iii)	The only correct answer is D (W is denitrification)	1
	A is not correct as P is not denitrification	
	B is not correct as T is not denitrification	
	C is not correct as V is not denitrification	

Question Number	Answer	Mark
4(b)(i)	A description that that makes reference to five of the following points:	5 77.0
	1. increase in nitrates / phosphates/ eq (1)	
	2. <u>eutrophication</u> (1)	
	3. algal bloom / more algae / plants grow on surface / eq (1)	
	4. blocks sunlight / prevents photosynthesis /eq (1)	
	5. plants die / algae die / eq (1)	
	6. bacteria decompose / bacteria respire / microorganisms decompose / microorganisms respire /eq (1)	
	7. oxygen depleted / oxygen used (in respiration) / oxygen required (for respiration) / eq (1)	
	8. fish / aquatic organisms / die /eq (1)	

Question Number	Answer	Mark
4(b)(ii)	animal manure / dung / faeces / animal waste / eq (1)	1
