SECTION B

Answer any TWO questions in this section.

If you answer Question 6, put a cross in this box .

Leave
blank

6. Many bacteria are pathogenic to humans.

(a) (i) Draw a large, labelled diagram to show the structure of a typical bacterium.

(5)

(ii) Describe how bacteria obtain the nutrients that they need.

.....
.....
.....
.....
.....
.....
.....
.....

(3)

Leave blank

(b) Tuberculosis is a disease caused by a bacterium. This disease spreads easily in overcrowded and unhygienic conditions.

(i) Describe how tuberculosis is normally transmitted from person to person.

.....
.....
.....
.....
.....
.....

(2)

(ii) Describe how a person found to have contracted tuberculosis should be treated and explain why early detection of the disease is important for the patient.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

(4)

(ii) Describe how the lining of the trachea and of the bronchi is damaged by cigarette smoke.

.....

.....

.....

.....

.....

.....

.....

.....

.....

Q7

(Total 20 marks)

Leave blank

If you answer Question 8, put a cross in this box ☒ .

8. Many microorganisms have an important role in the human environment.

(a) (i) Describe the role of microorganisms in the decomposition of organic matter.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

(4)

(ii) Describe and explain the conditions in which decomposition occurs most readily.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

(4)

(iii) Explain why decomposition is an essential process for the environment.

.....

.....

.....

.....

.....

.....

.....

.....

.....

(3)

Leave blank

(ii) Explain why the percentage concentration of carbon dioxide in the atmosphere has remained almost constant for thousands of years.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(4)

Leave blank

(b) (i) Recent figures show that carbon dioxide levels in the air have risen over the last 50 years.

Suggest reasons for this rise.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

(4)

(ii) Polluted air sometimes contains carbon monoxide. Describe and explain how humans are affected by this gas if it is inhaled.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
